

ABOUT ME

 [linkedin.com/in/xirong-zhang-527277b7](https://www.linkedin.com/in/xirong-zhang-527277b7) | echozhangsz@gmail.com | Lyon, France

- Senior Game Producer with 15+ years of experience across platforms.
- Led cross-functional teams across product, engineering, design, and business functions
- Strong transferable strengths in complexity management, prioritization, delivery coordination, and user-focused execution.
- Shipped products across mobile (iOS & Android), web, and social platforms.
- Strong product and delivery leadership, with hands-on experience exploring AI-driven workflows for prototyping, iteration, and user-focused product development.
- Fluent in English, intermediate in French, and native in Chinese.

XIRONG ZHANG

WORKING EXPERIENCES

AI Builder 2026.01 ~ Present 4 mos Lyon France

- Built and deployed AI-assisted products from problem definition and user-flow design.
 - Prototyped interactive experiences and lightweight tools using generative AI.
 - Evaluated AI use cases based on user value, output reliability, implementation effort, and the need for human oversight.
- ◇ Person projects: website, game demo, practical tools etc. Tools: Cursor, Codex, Claude Code, ChatGPT, Gemini etc

The Sandbox Senior Producer 2023.04 ~ 2025.10 2 yrs 7 mos Lyon France

- Translated IP partner goals and player needs into Web3 product concepts, scope, and prioritised roadmaps.
 - Made feature and scope trade-offs across player value, partner objectives, technical feasibility, NFT-based monetisation, and launch constraints.
 - Used Agile practices, AI tools, user feedback, and behavioural data to improve workflows and achieve an average player rating of 4.5/5.
- ◇ Projects: The Voice, Cirque du Soleil, Little Prince, Chupa Chups, Hell's Kitchen, Kongregate, Deepak Chopra etc

Voodoo Senior Producer 2022.05 ~ 2022.12 8 mos Paris France

- Adapted proven mobile game concepts into HTML5 instant games for Facebook and other social platforms, defining platform-specific gameplay, UX, technical scope, and integration requirements.
 - Managed end-to-end production across multiple concurrent HTML5 / instant game projects, including scope, budgets, external studios, quality, platform requirements, and launch delivery.
- ◇ Projects: Castle Raid, Mob Control, Snake vs Blocks, Helix Jump, Pokey Ball, Slice it All, Knock Balls, etc

i4Player Project manager 2018.11 ~ 2021.01 2 yrs 3 mos Shenzhen China

- Defined the concept, core loop, and launch priorities for a F2P game combining match-3 and tower-defence mechanics.
 - Reached approximately 40% D1 and 20% D7 retention in early testing; used funnel and monetisation data to prioritise subsequent experiments.
 - Launched and operated products across WeChat, ByteDance, and Google Play.
- ◇ Product (Mobile Android): Merge & Defense (2D, match 3 & tower defense)

Anyfun Studio Lead Producer 2016.04 ~ 2017.11 1 yr 8 mos Shenzhen China

- Defined the initial product vision and gameplay direction for a 3D MMORPG, led the team from concept through launch.
 - Built and led a 30+ person multidisciplinary team, improving decision flows and removing production bottlenecks.
 - Partnered with publishers to prioritise live-operation content and post-launch changes based on user feedback and engagement signals.
- ◇ Product (Mobile-Android & iOS): Evil Spirits (3D MMORPG)

Funplus Senior Project manager 2015.07 ~ 2016.04 10 mos Beijing China

- Led LiveOps for Family Farm, defined a Guild/Team feature, including its core mechanics, progression, and monetisation approach which contributed to a 40% month-over-month revenue
 - Used data analytics to refine monetization and gameplay features.
 - Led cross-functional teams to support implementation and optimization.
- ◇ Product: Family Farm (2D, Farming, Facebook)

Gameloft Producer 2009.04 ~ 2015.03 6 yrs Shenzhen China

- Producer (2011-2015): Scoped projects, set KPIs & roadmaps; drove end-to-end execution balancing vision with feasibility, global team collaboration.
 - Designer (2009-2011): Shaped game design direction; collaborated with engineers on dev tooling.
- ◇ Projects (Mobile Android&iOS): Splinter Cell (3D, TPS), Where is Wally (2D, puzzle), LINE Golf (3D, Sport)

Vtech Game Designer Sep 2004 - Mar 2009 4 yrs 7 mos Shenzhen China

- Designed learning interactions for children's educational products and global IPs.
- Translated learning objectives into age-appropriate gameplay concepts and detailed design documentation.
- Worked with art, engineering, QA, and audio teams through implementation and quality review.
- Adapted learning experiences to global IP and licensing requirements, including Mickey Mouse, SpongeBob, Learning Wheel, and Winnie the Pooh.
